

American Helicopter Society Southwest Chapter presents...

Jim Andrews

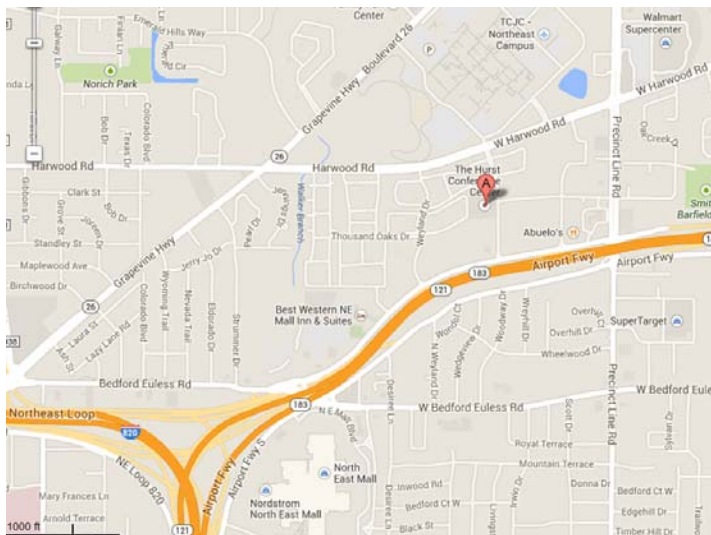

Senior Manager Sikorsky, CH-53K Deputy Chief Engineer

Implementation Of Virtual Design Tools On The CH53K Improving Design and Manufacturing Efficiency

April 7, 2014

Jim Andrews is a senior manager for Sikorsky Development Programs who currently serves as the Deputy Chief Engineer for the CH-53K Heavy Lift development program. His responsibilities include the technical and strategic leadership for the design, development, and testing of systems required for the CH-53K Program.

Jim has more than 25 years of experience in technical analysis, design, integration, and test engineering. He joined Sikorsky in 1996 and has held various positions with increasing responsibility including Attributes Manager for the S-92 / VXX programs, S-92 Chief System Engineer, and Lead Engineer for the CH-53K Product IPTs.
